INTUITIVE NEW CAMRY  THE CAR THAT READS THE ROAD

THE INTUITIVE NEW CAMRY

Introducing the intuitive new Camry, the car that sets the standard for luxury and technological sophistication in its class. In designing the new Camry for tomorrow, Toyota looked at the world in a completely new way. The result? A truly intuitive car. With a world class braking package, Active Braking with intelligence (AB-i), which incorporates Anti-skid Braking System (ABS) with Brake Assist (BA) and Electronic Brakeforce Distribution (EBD) right through to the Grande's Driver Assist Technologies (DAT) of Vehicle Stability Control (VSC) and Traction Control (TRC) systems, new Camry is the car that reads the road.

INTERIOR INTUITION

Designed to integrate driver and vehicle, the new Camry's internationally styled luxury interior is crafted with superb attention to detail for superb levels of comfort.

The cabin envelops the driver, providing an ideal driving environment. Adjustable seats, power lumbar adjustment along with tilt and telescopic adjustable steering wheel put the driver in the perfect driving position.

Controls and switches are positioned instinctively, exactly where the driver expects them to be. Stereo controls are located in the steering wheel for easy access so you don't have to take your eyes off the road while driving.

Information panels are within natural sightlines. Simple, elegant graphics providing uncluttered information at a glance.

Dual stage front driver and passenger SRS airbags which measure the intensity of the collision and deploy accordingly, come standard. Front side and full length curtain SRS airbags are standard equipment on Ateva, Sportivo and Grande and optionally available on Altise.
